Remodeling of Office Space 5th Floor West J.G.Shanklin Building November 19, 2003

Scope of Work

Demolish walls as shown on the attached floor plan SK1.

Relocate electrical outlets, thermostats, and door, to suit the new floor layout as shown on SK2.

Provide new metal stud partition walls new outlets, new light switches and exit light, as shown on the attached sheet SK2.

Provide cove base, and wall paper for new walls, as per building standard.

Provide air conditioning to the new layout from existing building air conditioning system. Provide individual zones, one for the Office 1 at the outside wall, and one for the work room and the secretary area. Provide building air for Office 2.

The dimensions of the spaces shown on the attached floor plan are approximate. Determine sizes conforming to the ones shown, on site.

All electrical work shall conform with National Electrical Code (NEC), and all air conditioning work shall conform with SMACNA (Sheet Metal& Air Conditioning Contractors' Association).

Remove and dispose of all materials not reused, and leave the space clean of all debris from construction work.

The contractor shall provide shop drawings of all equipment to GSA for approval.

The contractor shall provide a line item estimate for the above described work.

Alternate 1

All work as per above except all new work shall be as per SK2a, instead of SK2.

<u>Attachment No. 1, Scope of Work-Alternate 1</u> Lease # GS-07B-14933, SLA No. 8
