

The Assisted Acquisition Services (AAS) program of the Federal Acquisition Service (FAS)...

offers value-added, customized, acquisition, project management, and financial management services for large and/or complex Information Technology and Professional Services solutions.

AAS trained staff are certified contracting, project management and financial management professionals. AAS offers expertise in formulating and executing Information Technology and Professional Services solutions

AAS delivers value through acquisition, financial management and project management excellence. AAS works with agency program, financial, contracting and legal counsel to ensure requirements are met on time, within budget, and at reduced risk, resulting in best value solutions. Customized services are scalable and available when and where agencies need them.

Solutions may include the use of Governmentwide Acquisition Contracts (GWACs), Multiple Award Contracts, GSA Schedules, Single award or Agency-Specific Contracts. This suite of solutions provides customer access to thousands of commercial partners and unlimited variety in information technology and professional services solutions. Additionally, AAS can also help meet small business goals by offering solutions such as 8(a) STARS II, Alliant Small Business, and VETS contracts.

AAS's focus on financial management ensures customer agency's money will be spent in accordance with appropriation, authorization and bona fide need. AAS also ensures compliance with all applicable Federal Acquisition Regulations, including agency specific acquisition and financial management policies.
